Re: Letter of Dental Necessity

Patient: Steven Miller

To whom this may concern,

This letter is to request more time with our patient Steve Miller. I am writing to provide dental information related to Steve. I have been treating Steve since April 2024. During my examinations, I observed many fractured teeth and severe decay and infections. This condition has resulted in the implications, such as pain, difficulty eating, I have provided the following treatments:

Extractions

Bone graphs

Implants

Dentures

The patient has no teeth and requires false teeth to be fitted, adjusted and finished. They are necessary for him to be able to eat. The patient has implants that will snap into dentures and requires more time in the office for impressions, adjustments and lab work. I am requesting more time with my patient to finish his dental treatment. I am anticipating will be done by October 31st.2024 if everything goes as planned. Thank you for your prompt attention to this matter.

Should you require any further information or documentation regarding this case, please do not hesitate to contact me.

Sincerely,

Dia Basha DDS.
